VÅRLAKS

ARCTIC ORIGIN. PROVEN QUALITY.

Raised above the Arctic Circle in Northern Norway, backed by internationally recognised standards for responsible aquaculture, food safety and nutrition.

VÅRLAKS CERTIFICATIONS

AMERICAN HEART ASSOCIATION CERTIFIED

Selected VÅRLAKS salmon products are certified through the American Heart Association's Heart-Check Food Certification Program. The programme helps consumers identify foods that meet specific, science-based nutritional criteria and can be part of a heart-healthy eating pattern. Salmon naturally contains protein and omega-3 fatty acids. **What it means.** Recognised nutritional criteria to help consumers make informed food choices.

AQUACULTURE STEWARDSHIP COUNCIL (ASC) CERTIFIED

The Aquaculture Stewardship Council (ASC) is an internationally recognised certification programme for responsible aquaculture. Its standards address environmental and social aspects of fish farming, including water quality, responsible feed sourcing, fish health, biodiversity and working conditions. **What it means.** Responsible farming, measured against recognised standards.

GLOBAL G.A.P. CERTIFIED

GLOBALG.A.P. sets internationally recognised standards for responsible farming practices. Its aquaculture certification covers food safety, traceability, environmental management, fish health and welfare, and workers' health and safety. **What it means.** Recognised farming standards, with care for our fish, our people and food safety.

KOSHER CERTIFIED

Kosher certification verifies that certified products comply with applicable Jewish dietary requirements. This includes relevant standards for ingredients, processing and product handling. **What it means.** Clear information for consumers who follow a kosher diet.
